*International twin conference*

*Geotourism development*

*&*

*History of mining in Central Europe*

*Miskolc, Hungary*

*16 – 18 October 2014*

*1<sup>st</sup> circular & call for papers*

## Introduction

Geotourism and mining tourism as a relatively new tourism form with special interest in geo(morpho)logical and mining heritage significantly grew throughout the world in last years. This development is closely connected to definitions and characterizations of this tourism form, its impacts, ideology and many other features that still require broad discussion.

The international twin conference GEOTOUR & IRSE 2014 will be held in Miskolc (Hungary) and will be devoted to all the issues of geotourism and mining tourism and other closely connected fields of tourism research integrated into seven defined subjects.

## Organizing institutions

Technical University of Košice

University of Miskolc

KGHM Cuprum Ltd., Research and Development Centre

## *Patrons*

**Prof. Dr. Péter Szűcs DSc.**

Dean of the Faculty of Earth Science and Engineering

**Dr.h.c. prof. Gabriel Weiss, MSc., PhD.**

Dean of the BERG Faculty, Technical University of Košice

**Prof. Monika Hardygóra**

KGHM Cuprum Ltd. - President of the Board

## *Organizing Committee*

**Beáta Szilasi Siskáné, MSc., PhD.**

Miskolc University

**Assoc. prof. Ladislav Mixtaj, MSc., PhD.**

Technical University of Košice

**Ľubomír Štrba, MSc., PhD.**

Technical University of Košice

**Malwina Kobylańska, MSc.**

KGHM Cuprum Ltd., Research and Development Centre

## *Conference secretary*

All correspondence should be sent via e-mail to:

**E-mail:** geotour.irse@gmail.com

**Phone:** +421 (0)55 602 2442

Institute of Geotourism

Nemcovej 32

BERG Faculty

Technical University of Košice

042 00 Košice, Slovakia
